

Petroplast S.A. was founded in 1990 as a family business. Its main activity is the production of flexible plastic tubes for Cosmetics, Pharmaceutical, DIY and Lubricants always focused in providing the services that our customers need.

Petroplast puts the emphasis firmly in developing the knowledge of all processes affecting its activity by all people involved. Moreover, our company promotes the communication among the staff in order to favour the effectiveness of our actions.

Continuous improvement is the driving force behind our professional and personal activities, accompanied by a constant commitment towards innovation in our products and processes.

Professionalism, commitment and teamwork are the values that should be fostered in our company. The development and progress of our staff is based on their merits, initiative and professional contribution to the firm.

All our actions are aimed at achieving the objectives of our business project. In addition we do wish to remark our commitment with the community, in all relevant environmental and social terms.
